Our favourite new superyacht designs

73M // MM725 // MALCOLM MCKEON YACHT DESIGN

Following a natural design philosophy, the hyper-modern sloop MM725 connects her guests to the surrounding elements through an open deck layout, retractable balconies and a glass superstructure that runs through the entire saloon. Her airy interiors and floor-to-ceiling windows allow for much natural light to brighten up the spaces and enhance the one-with-nature experience aboard MM725. MM725 is designed for comfortable living and smooth sailing in utmost luxury. With a foredeck tender bay that transforms into an illuminated swimming pool, a beach club set-up and a sunken outdoor lounge area, MM725 offers the perfect oasis to relax and unwind.

120M // COLUMBUS CLASSIC 120 // HYDRO TEC - PALUMBO SUPERYACHTS

Inspired by the success of its Columbus Classic 80 line, Palumbo Superyachts has introduced its largest motor yacht concept to date: the Columbus Classic 120 motor yacht. Floor-to-ceiling windows adorn the interior of the vessel, maintaining the clean lines that run throughout her interior and exterior. A cascading waterfall found on the main deck connects the two onboard pools. The beach club is located and features a spa, gym and bathing platforms. Designed to cater to the needs of both private and charter guests, the yacht has a helicopter deck and plentiful space for two custom-designed tenders as well as numerous other toys such as jet skis and sea-bobs which will be housed in the tender garage, located forward of the beach club.
